## Stylist picks for spring 2006

- 1 Wide, eye-catching belts buckled over dresses are the name of the game – if they're in contrasting colours. As you might have guessed, this unforgiving look isn't for everyone.
- 2 Even though roomier-cut clothes are storming the runways, the "balloon" effect just isn't in. The solution: beautiful belts. They are the quickest way to glam up a loose-fitting top.
- 3 Lovely, low-cost satin ribbons are a hot accessory for tying off trenches, dresses and cardigans. Give almost any dress an empire waist by tying a ribbon just under your bust.
